If the shops were closed on Main Street!

IT may not be Main Street in this city, but read on---

Picture what would happen if all the shops where you do your buying were to close tonight and remain closed indefinitely.

Supposing the shops on Main Street, in every other town or city, were to close at the same time.

In a month---in perhaps less than a month --- the life of the country would be par-

These rather far-fetched possibilities are cited to bring home to you the importance of the retail store to the life of the community.

If you don't buy normally from your local merchants they in turn will not buy from the manufacturers---and unemployment and chaos will follow.

These thoughts are suggested for you to ponder over when you hear people talk about not buying. Some of them assume "a holier than thou" attitude when they make such a statement, as though their self-deprivation was a virtue.

As a matter of fact, such an attitude is a barrier to prosperity --- a menace, not only to themselves, but to the country at large.

Honor those who are doing what they can to encourage industry by their buying.

Honor those merchants who are buying and who are advertising, so that trade and industry may resume its normal course.

Give them their due.

Buy from them.

Long Distance Calls

EVERY day hundreds of Long Distance calls are made by patrons who wish to talk to anyone at a distant telephone.

These are Station-to-Station calls.

Station-to-Station calls are completed more quickly and at less expense than where it is necessary for us to locate a particular person, and therefore the rate is lower.

Many subscribers are taking advantage of this speedy and less expensive service, and many others by studying their needs can save money by using it.

To place a Station-to-Station call, reach the Long Distance operator in the usual way and say, "I wish to talk to anyone at No. 456 Springville"; or if you don't know the telephone number, say —"I wish to speak to anyone at James King's residence, B. Street, Springville."

Every Bell Telephone is a Long Distance Station.

To Buy or Not to Buy? There Can Be No Question!

EVERY time you spend a dollar for advertising goods you create employment for somebody.

Every time somebody else spends a dollar for advertising goods they create employment for somebody---maybe for

That may sound far-fetched, but if you reason it out you will find that it is so.

The world revolves upon industry.

That which creates industry is the consumption or wearing out of goods, and the buying of other goods to replace

Without industry, the world would stägnate.

Without steady, persistent buying, industry would cease.

Those who refuse to buy at the present tause who remuse to buy at the present time; because of a false impression re-garding values, or for some frivolous reason, retard industry, and by so doing, impair the prosperity of themselves, the community they live in and the country

The important thing to remember is, to buy from those who advertise in this paper. These merchants and manu-tacturers have faith and they are back-ing their faith with money to stimulate industry and prosperity.

added to adorable pattern

HE refreshingly new, exclusive patterns and the rich, gleaming lustre of "Holmes & Edwards" silverware add an air of distinction and brilliance—make any table-setting more sumptuous and inviting.

Old-time craftsmanlike hand-burnishing gives "Holmes & Edwards" a sparkle-a mirror-like sheen-that flashes richly beneath the glowing lights. No other silverplate gleams so brightly. And apart from this rich lustre, hand-burnishing gives to "Holmes & Edwards" silverplate extra wearing quality. Moreover, this beautiful product of the silversmith's art

is protected at the wear points. In "Holmes & Edwards" SILVER INLAID blocks of solid

silver are sunk and fused in before plating on the back of the pieces most often used-just where friction causes wear. In "Holmes & Edwards" Super-Plate these points are

protected by an extra heavy deposit of pure silver. To those seeking gifts for the June Bride or tokens for wedding anniversaries, no more welcome, lasting or fascinating choice could be desired than m selection of exclusive "Holmes

& Edwards" pieces - the highest quality silverware made.

The Caravans Are Here

The Romance of Modern Shopping

In olden times when people wanted to buy wearing apparel or house-hold goods and certain foodstiffs (like coffee and spices) they had to wait until the caravans came along.

Contrast this with the Romance of Modern Shopping.

To appreciate this Romance to the full, take a walk through the shops of this city. Is them you will find rugs from Persia, from Turkestan, from India and from China. Carpets from Canadian looms and from United States and Greag Britain.

Furniture made from Canadian lum-ber in Canadian factories, as well as articles from United States, France and Great Britain.

You will find linens made from Can-adian-grown flax in Canadian mills, as well as linens from Ireland.

There are calicoes, blankets, sheet-ings and dress goods made in Can-ada. United States, Lancashire, Yorkshire, the West of England, Scotland and Ireland.

You will find silks from France, from Italy and from Japan.

You will find ladies' wearing apparel designed and made by the artistic craftsmen and workers in Canada. Great Britain, France and United States.

The same thing is true of the men's wearing apparel and the fine wool-lens made up 'n our own factories and in those of Leicester, Notting-ham and Halifax, Huddersfield and Wakefield.

You will see fine shoes from twenty or thirty good Canadian makers.

There are hats from Canada, Unit-ed States, Italy, France and Great Britain. Gloves from Switzerland, France, United States and Canada.

We all owe a great tribute to the re-tail merchants of the city (particu-larly to those who advertise), be-cause they got only venture into the world's markets to buy goods to add to our comfort and enjoyment; they also encourage inter-community period of the community of the land of the community of the community of the fining of these goods.

The next time you go shopping think of the Romance of it-

Rate Depends on Type of Service The "Station to Station" rate for long distance calls applies when the calling party does not ask to talk to a particular person, but merely to anyone who answers the distant telephone. This type of service is furnished at a lower rate because it requires less work by long distance opera-tors and less circuit time than when a particular person must be reached. person must be reached.

"Station-to-Station" calls must be made either by giving the telephone number wanted or the name or address under which that telephone is justed. If the calling party states he wishes to talk to a particular person, the "Person-to-Person" rate, which is about one-fourth higher, is charged. Ask us about anything concerning these rates that is Every Ball Telephone is a Long Distance Station. THE BELL TELEPHONE COMPANY OF CANADA

TO ALL BELLEVILLE PARENTS:

Dear Parents:-You should be familiar with the Penny Bank System, which is being carried on in all of the Public Schools of this city. its sole purpose is to assist your children inbecoming THRIFTY men and

The teachers, the Merchants Bank and the Directors of the Penny Bank give their time without any remuneration in order to make the system a success-to get EVERY Pupil to open a penny bank account and add to it EVERY WEEK.

Each and every week your boy and your girl has the opportunity to open up or add to an account with his or her teacher. Interest is paid on all deposits at 3 per centr per annum. Alithe deposits of the pupils are, by law, juvested in Dominion Bonds or Post Office Savings Bank.

The co-operation of all parents is carnestly sought. EVERY pupil aid have a Bank Account, when only a deposit of two cents is required to start it. Over fifty-five hundred dollars is on deposits to the credit of Bellevillo pupils at present.

Encourage Thrift. Ask your boy and your girl about the Penny Bank. See that they have a passbook without delay.

Over 100,000 pupils in Ontario are practising THRIFT by this

ARE YOURS?

Faithfully yours,

M. A. MACKENZIE.

-LEET to Business IF you ask a man why he wears FLEEP FOOT shoes to business, nine times out of ten he says, "because they are so comfortable." FLEET FOOT shoes are comfortable. The fing rubber soles and heels take up the jar of walking

The canvas uppers are light, cool and easy on the feet. The shapes are designed by experts who know how to put good style into sh oes that fit the feet snugly, yet are light and flexible.

Most men wear FLEET FOOT right through the summer. They have several pairs. Sensible oxfords for business—sport models for bowling; golf or tends—a sunart pump for evening wear—and perhaps heavy FLEET FOOT shoes for gardening or working around the house. FLEET FOOT are so economical that you can have two or three pairs for the price of one pair of leather shoes

Wear them this summer-put the whole family in FLEET FOOT,

The name in the style of lettering shown above, is stamped on every genuine FLEET FOOT Shoe-look for it.

FLEET FOOT shoes are sold by the Heading shoe dealers everywhere. Helicated shoe dealers everywhere.

Real Daylight Saving

WOMEN and men everywhere, in every trade and profession, are using the Overland to speed up business and save daylight for recreation.

It eliminates lost motion from their labors and leaves them more time for their business, and more devotion to home.

And it is so economical to run that it saves money as well as daylight.

Shelter

THERE is only one sure way of sheltering your loved ones from the storms of adversity.

The experience of thousands of capable business men is that in the "last analysis" life insurance is the one dependable asset.

When wills are probated it is often a cause of intense surprise and keen disappointment that there is no estate, and the life policy then becomes the one sure refuge—"a shelter in the time of storm".

The invention of the original Gillette Safety Razor marked

the first great advance in the art of shaving in 5000 years. Up to the present time, by the World's verdict, it has remained the most efficient

It is now superseded, under world-wide patents, by the New Improved Gillette Safety Razor-an advance so positive as to increase shaving efficiency more than 75%, and add to the daily comfort of men in every part

The New Improved Gillette Safety Razor PATENTED: CANADA, AUGUST 31st, 1920

> of the globe. The above diagram shows the epoch-making improvement in the New Gillette Safety Razor.

> You see the Fulcrum Shoulder and Overhanging Cap.

You see how the blade is biffexed between Overhanging Cap and Fuj-crum Shoulder.

It is flexed once into the inside curve of the cap; then again — more sharply and on a shorter radius— by the grip of the Overhanging Gap the whole length of the Fulcrum

It holds the blade rigid and flat the whole length of the shaving blade.

THE PULCRUM SHOULDER

The New Improved GILLETTE SAFETY RAZOR

Uses the same fine Gillette Blades, as you have known for years—but now your blades can give you ALL the luxury, of the finest shaving edge in the world.

Identify the New Improved Gillette by its

Finer Shave—Longer Service
More Shaves from your Blades

In SILVER and GOLD Shaving Sets & Traveler Outflet \$5.00 everywhere

It gives exactness to 1/1000th inch-a micrometric precision impossible with the old type Gillette, and never even dreamed of with any other shaving device ever produced. The New Improved

Gillette Channeled Guard Follow the New Gillette over the face, and see the results of the Channeled Guard.

The skin lies flat against the tangent of cap and guard.

The beard springs upright against the shaving edge.

The edge comes automatically against the beard at the very surface of the skin. It cuts square across the hair—each hair slipped clean through.

Cut hairs and lather go into the channel. They cannot jam between blade and guard and cap. They cannot clog the shaving action. Your razor edge is free every inch of every stroke of your shave.

75% More Efficiency and Comfort— More Shaves from Your Blades

Shave once over with the New Gillette and you'll find your face amoother, cooler, fresher than after going twice with any other raror, even the old-type Gillette. Adjustment is automatic— precise to 1/1000 inch.

ORGANIZATION AND EQUIPMENT

For the drilling opérations, three complete rigs have been ordered, and should be on the ground, about July 1st. Experienced Zrillers have been engaged to work under the direction of Mr. Frank H. Stover, one of Canada's best known old-drilling experts. From the locations of the control of t

The exploration work will be personally directed by a man who knows the North Country throughly—Mr. Frank E. Davison—assisted by a competent geologist and engineer. Mr. Davison-first went over this ground in 1888, and for over twenty years has been engaged in work in the Yukon and Alaska. In view of the probable wealth of the country and the experi-

ence of the men engaged, the expedition should acquire many more acres of valuable pil and mineral lands in 1921. Twenty or more trained men have been engaged for this development work by the Mackenzie River Oil Limited.

TRANSPORTATION AND

The Company has made full provision for the carrying in of rige and supplies. A transportation company operating boats on the waterways, and trucks, tractors and motor cars at the portage will take ir all the freight required for this Company's operations.

PEACE RIVER OIL HOLDINGS

Mackenzie River OB Limited, in addition to the 3,840 acres at Fort Norman, have 10,000 acres of OH Leases in the Peace River District, Geologists claim that oil will be found at from 1800 to 2500 feet in these fields, so that some of the veils should soon reach the oil strata. In this case the company's holdings will become extremely valuable,

ine Silverware-

Rich Lustre Combined With Rare Beauty and a Charm That Lasts-

WOMAN'S pride in her home expresses itself in the setting of her table. Is it any wonder then, that silverware of such beautiful pattern and brilliant lustre as "Holmes & Edwards" is so highly prized?

More lavish in their use of silver, "Holmes & Edwards" craftsmen have also added a new charm to fine silverware—a hand-burnished lustre that gleams and flashes like a diamond.

Fine linen serves but to enhance the brilliance and distinction "Holmes & Edwards" lends.

Exclusive patterns are a further urce of pride,

But-most welcome feature of all is the fact that the charm of "Holmes & Edwards" silverware lasts. It is protected against wear.

In "Holmes & Edwards" SILVER-In Thomes & Lowards Silver-man and the survey of the survey of the survey of the survey of the most-are fused in on the back of the mostused pieces-just where friction mars ordinary silverware.

In "Holmes & Edwards" Super-PLATE these points are protected by a heavy extra deposit of pure silver.

The Satisfaction Which Comes From Satisfying You

T is a wonderfully satisfying thing to be able to produce tires to suit every size and make of car, for every purpose, business and pleasure.

It is also a wonderfully satisfying thing to know that this all-embracing variety of treads is linked with a quality and workmanship which have made Dominion Tires supreme in the confidence of experienced motorists.

Yet there is no secret about the mileage and riding comfort of DOMINION TIRES.

These are the outcome of ripe experience, plus facilities that are unsurpassed for efficiency and accuracy, and materials which cannot be bettered in the world. It is this DOMINION standard of quality and workmanship which has taken the guesswork out of buying tires. Select the Dominion Tire best suited to your car and you will get the tire of satisfactory mileage, easy tiding and freedom from ordinary tire troubles.

Perhaps a tread entirely different from the one you are using will suit your driving better—suit the roads you have to travel—make the car ride easier and give you greater mileage. You will find this tread in Dominion Tires.

Ask the DOMINION TIRE Dealer. He knows tires. He can supply all treads of DOMINION TIRES—DOMINION TINER TUBES to give you perfectly balanced tires—and DOMINION TIRE ACCESSORIES.

What You Owe to Advertisers

You owe to advertisers, in daily newspapers almost everything that has made living more comfortable and healthy.

Daily Newspaper Advertisers of foodstuffs gave you clean foods, just weights and fixed prices for the things you buy to eat.

Daily Newspaper Advertisers gave you better houses, modern bath-rooms, hardwood floors, electric, lights, gas and electric ranges.

Daily Newspaper Advertisers gave you better clothes to wear by edu-cating the public to the value of good clothes and their economy.

Daily Newspaper Advertisers made your housework easier by giving you quick cleansing finide, jurniture polishes, floor methines, vacaum cleaners, carpet sweepers, alumin-am cooking intensits, clothes dyrers, sewing machines, gas and electric irons.

Daily Newspaper Advertising made it possible for you to retain the heauty nature endowed you with by suggesting emollicuts, toilet pepar-atio-s, shaving creams, safety rators, etc.

The ploneers in all these things were the firms who made thom and advertised them.

It is for this reason that you should always buy advertised goods.

These goods have raised your standard of comfort and living; and the manufacturers of them command admiration for their courage and foresight.

Dollar for dollar, the advertised article is always better value. The crasson is that when an article is advertised, production of it is invariably greater. Therefore, the manulacturer has a larger output and a lower cost of production; thence the greater value for the money.

is a scientific food which nourishes the body without burdening the stomach. It contains the perfected nutriment of nature's best grains. It is partially pre-digested. It gives energy without taking energy. There's a big difference in the day's work, with a helper like that. Many have found it so. Grape: Nuts, served with cream or milk, is a joy to the taste. But that's only the begining. It's a first aid to body and brain. That's the delightful finish.

Just before the close of navigation, and too late for further development work in 1920, the Imperial Oil Gompany brought in a well estimated aff from 1,500 to 2,000 berrels, at a depth of about 800 feet, within 45 miles al Fort Norman

1921 OPERATIONS

In 1921 the first attempt on a large scale to develop the property of the Mackenzie River oil to the state of the state of

ORGANIZATION AND EQUIPMENT.

For the drilling operations, three complete rigs have been ordered, and should be on the ground about July 1st. Experienced drillers have been engaged to work under the direction of Mr. Frank 1s. Stover, ont of Canada's best known old-drilling experts. From the locations attend to evidence, and as of it found at a strategy in evidence, and as of it found at a constant of the control of the con

The exploration work will be personally directed by a man who knows the North Country theoretically a version—saisted by a competent geologist and engineer. Mr. Davison flowest over this ground in 1888, and for over twenty-genra has been engined in two work in the Wakon and Alakai. In view of the probable wealth of the country and the experi-

ence of the men engaged, the expedition should acquire many more acres of valuable oil and mineral lands in 1921. Twenty or more trained men have been engaged for this development work by the Mackenzie River Oil Limited.

TRANSPORTATION AND SUPPLIES

The Company has made full provision for the carrying in of rigs and supplies. A transportation company operating beats on the waterways, and trucks, fractors and motor cars at the portage will take in all the freight required for this Company's operations.

PEACE RIVER OIL HOLDINGS

Mockenzie River Oll Liedted, in addition to the 3,840 acres at Fort Norman, have 10,007 acres of Jil Leases in the Peace River Bistrict, feelogists claim that oil will be found at from 1000 to 2500 feet in these fields, so that some this case the company's holdings will become extremely valuable.

OFFER
To finance the purchase of drilling, rigs, supplies, cost of expedition, and development work. the Company now offers the first One hundred thousane-Oreasury Shares at \$5.00 per share (par value \$1.00 per share; flug soil and non-assessable) and not subject to call. The entire proceeds of the sale of stock are in be used only in the development and exploration work out-lined above.

lined above. These shares offer a speculation in oil that must appeal to business men. It is a venture in what is known to be in a most promising field.

It is being supported by well-known men of means and business experience who will carry on the Company's operations in a good business.

This is a Canadian Company, the management and organization are sound. The work will be carried on by men who know oil drilling and know the country.

the Direct Comparison Test

This means that the New Edison is the only phonograph that gives you exactly what the artist or artists sing or play into the recording horn when making a Re-CREATION.

This means that no other phonograph or talking machine can give the life-like realism you have a right to expect for your money-the absolute realism that Mr. Edison spent three millions of his dollars to develop.

And finally, this means that, if you are interested in buying a phonograph, your igood judgment should bring you to this store to ask us to prove the above claims. We shall welcome your visit.

Put CANADA On WHEELS

Get More Done-in Less Time

And greater individual efficiency is Canada's greatest need.

There is no other single factor that can bring this about as well as the use of more automobiles.

Then let us increase the Nation's man-power by the horse-power of motor cars!

That's what is meant by the slogan "Put Canada on Wheels." That is Overland's object in inducing present car owners to write letters on "What my dar means to me."

By proving in this way the adiity of the motor car—settling once and for all the fallary that an automobile is a non-sessital—it is hoped to arouse Canadians to the possibilities donoinly be realized to the full, if the president of the control of the present of the possible use is made of the greatest modern, aid to progress—motor car transportation.

HURRY 1 CONTEST CLOSES JUNE 1st

You still have time to enter this contest—letters will be received up to June 1st.

But don't delay ! Get an entry blank from your nearest Overland dealer or write to Contest Dept., Wilfys-Overland Limited, Toronto, !

Keep your letter within 300 words. Don't mention your name or make of car in your contest letter. Put your name and address on a separate slip of paper.

The competition is open to Canadian owners of all makes, only those in the automobile business not being eligible.

We Will Pay \$ 10000 for one letter-

\$1,000 for the best letter written by any Canadlan automobile owner.

\$250 for the best letter from a farmer.

\$250 for the best letter from a doctor.

\$250 for the best letter from a commercial traveller.

\$250 for the best letter from a woman motorist. \$100 EACH to TEN others. \$50 EACH to TWENTY others. \$25 EACH to FORTY others.

In all, 75 Awards, amounting to \$5,000.00

Dunlop Cord and Fabric Tires Are Now Made by the Same Unbeatable Process

This Dunlop Process Has at One Sweep Added 20% More Mileage to Fabric Tires

Means BIG Mileage

Here's What Truck Owners

Dunlop Tires, Both Cord and Fabric Construction, are Giving Phenomenal Results.

Big Tire Mileage is here to stay. Just as we predicted in 1912 that the Anti-Skid Tire would become standard, so we now predict that Big Tire Mileage will be among the things every motorist will consistently expect from now on.

The fire manufacturer who has to apologize for "short life" in his product will be auto-matically eliminated. Cord Tire construction made possible the coming of a tire that refuses to quit until many thousands of miles have been clicked off. The Cord Tire is now uni-versally accepted as the master choice.

And Dunlop Cord Tire is now the most popular. "Dunlop" is at top form, but don't forget that while we are furning out Cord Tires — Traction or "Ribbed" — which seem almost uncanny in filter ruggedness, that a great number, of motorists still-use Fabric Tires. These motorists whited more mileage than Fabric Tires were usually expected to give. That seem that the contract of the property of the contract of the property of the contract of the property could not be applied to

We experimented and were amazed at the find. It was that we could at one sweep add 20% more milesge to Dunlop Fabric Tires and make them last longer than Fabric I lires were ever known to last. Result! Dunlop "Cord" built Fabric Tires are giving some other makes of Cord Tires a run for their money at, of course, much lower first costs.

Dunlop Cord Tires are outdistancing any other Cord Tire made, no matter at what price the tire sells. The stories told here prove all we claim. We have hundreds more like them. Note the remarkable distances covered and the splendid average for all parts of Canada on all makes of cars.

Tommy says, "The fellows pester the life out of me. Before one of them has finished a ride, some other fellow is

Coaxing for a Turn They all seem to like my new C. C. M. a lot better than their

own bikes Aside from this one kick, Tommy is tickled to death with his new bicycle.

He admits he can hardly blame the fellows for wanting to ride it. It runs so much easier. And when the boys ask him why. Tommy tells them about the

C.C.M. Triplex Hanger

It reduces friction. And there's a freedom from those mean "tight and loose" spots often developed by other hangers.

Tommy says, "It makes a C. C. M. bicycle run so smooth and easy you'd almost think you were riding down grade. And I can feel the Tripe fairly sizels with power and pull away like mad when I hit her up!"

Boys! Girls! Have you rid-den a C. C. M. Bicycle with the C. C. M. Triplex Hanger? Get your father to go to the deal-er's with you and see one.

The New Models Are Beauties

The last word in bicycle style and smartness. Wonderfully smooth enamelling that fairly sparkles. And the "bright as sunshine" nickelling is done over copper so it can't rust.

All C. C. M. Bicycles have the New Hercules Positive Drive Coaster Brake—the kind that coasts farther and has no clumsy side arm

CUTS OPERATING COSTS-

THE economy of using Imperial Polarine Motor Oils extends over practically every item of motor operation.

The lubrication afforded at every friction point and the gas-tight piston-to-cylinder seal means a big saving in fuel bills and a noticeable increase of power.

Through perfect protection of all motor parts, undue repair bills are avoided and depreciation is greatly reduced. By using Imperial Polarine Motor Oils you can save dollars this year on maintenance alone. Besides, you realize more profit and greater usefulness from your car.

Always use the grade of Imperial Polarine recommended on our Charfs for your type off motor. See Charts at your dealer's or write to 8% Church Street, Toronto, for a 'copy of our interesting booklet, "Automotive Lubrication," which contains the complete Chart of Recommendations.

Government Taking Steps For Organization of Forces

IN ONTARIO DECENTRALIZATION PLAN WILL BE ADOPTED

—TORONTO WILL REMAIN HEADQUARTERS OF CEN. TRAL ORGANIZATION, BUT LONDON AND OTTAWA WILL BE SEPARATE.

OTTAWA, May 28.—Active steps are being taken for the syst

alic organization of the Government forces in every constituency of Can ada. At each succeeding caucus steps along this line have been taken and there was further action on it today. In Ontario a process of decentralization is to be adopted. In place

of citier being run from Torotto, which still will be the headquarters of the contral organization, there will be separate headquarters at London (for the twenty-feer felings in Western Ontation, and at Ottawa for these in the castern part of the Priviace, In addition, there will be the regulation of the castern part of the Priviace, In addition, there will be the regulation for cach riding. It is left that district headquarters are able to know better and come into much more infinitate contact with the constituencies, and promote a much more efficient organization, than would be possible under a system of centralized direction from Toronto-A campaign of education on public issues is to be carried on.

Among all these millions, there are no speculative securities. Safety First, Last and All The Time is the motto of the Mutual Life of Canada.

As an additional precaution, the investments are widely distributed in every province in Canada and in a variety of sound, safe sequities. sound, asfe accurities.

Working on this careful system has resulted in the unusual and highly desirable combination of well-accured principal with a high interest-eraning rate.

The prudent, conservative business man will find in the Muqual's system of investing its funds a very strong reason for the purchase of Mutual Life Insurance.

Have you a Mutual Life Dicky among your assets?

The Safety of

Mutual Insurance

THERE is no safer investment than life insurance.

If the Mutual Life of Canada were to stop selling life insurance and just continued in force the policies now on the books, the resources of the Company would not only pay all claims as they occurred, but there would remain a splendid surplus to be distributed in the form of dividends.

As a proof of the safety of Mutual Life Insurance let us see how the immense assets of the Company are invested.

Just Soak the Clothes in Rinso Suds-then Rinse

It's not a cake soap—not a chip soap—not a washing powder, but a wonderful new form of soap—in granules—which washes clothes immacu-lately clean—gleaming white—without either rub-bing or boiling.

These pure granules are so rich in cleansing value, that they loosen the hardest dirt while the clothes soak for a few hours. Yet Rinso is so hamiless that it doesn't even redden your hands.

It/seems almost unbelievable that RINSO cleans so easily. Just soak the clothes for a few hours in the pure, rich, cleansing Rinso suds—then rinse a few times in either warm or cold water and they are as clean and white as though you had boiled and rubbed them for hours. One trial will convince you,

Try RINSO Next Monday

Follow the essy directions on the Rinso package and see how it soaks out the dirt that you used to get out by

If you have a washing maching-Soak the clothes overnight in the usual Rinco way. The cleansing sauds loosen every hit of dirt. In the morning operate the machine for a few minutes and the clothes are per-fectly clean—even the most soiled spots.

Abandoned when seven months old

A wee tot, hardly two years old, is Albert, with fair hair and big blue eyes —you just couldn't resist

Albert hasn't a private nurse. Oh no, his nurse has a lot of other little charges to share her attention. He is one of the little patients at The Queen Mary Hospitial for Consumptive Children on the banks of the Humber.

Albert was abandoned by Albert was abandoned by his erring mother when only seven months old.

He was a most hopeless to hopeless the wine her when left with the nurses at the Babies' Cottage, but now he is a sturdy little, chap that anyone might be proud to own.

Think of it! Ninety per cent of all the children treated at the Queen May Hospital are restored to perfect health. Worth sup-porting, isn't it?

.MOST inventions develop slowly. Here a little detail. There another—and so on, until you can hardly tell when the perfected device finally took shape.

Here in the New Improved Gillette is one of the startling exceptions.

At one stroke-micrometric precision, exact to 1/1000 inch, and these three fundamental discoveries, the Fulcrum Shoulder, Overhanging Cap and Channeled Guard.

The result of the unequalled Gillette experience and resources, developed by nearly 20 years' service to the shaving needs of every civilized people on the surface of the globe.

Even measured against your old-type Gillette, the New Improved Gillette Safety Razor represents an advance of 75% in shaving comfort and efficiency.

To the man who has never used an old-type Gillette, we say this:

Compare the new Improved Gillette with any shaving method or device you know now. It opens up an entirely new era in shaving — the era of precision, of exact and predictable results.

It is worth any man's money—no matter how attached he may be to his old-fashioned razor or old-type Gillette.
